Investment Philosophy and Objective

Amundi Funds Global Ecology ESG seeks to achieve capital appreciation over the medium to long-term by investing primarily in a diversified portfolio of equities and equity-linked instruments issued by companies worldwide manufacturing or producing environmentally friendly products or technologies, or that contribute towards the development of a cleaner and healthier environment. Such companies include those operating in the fields of air pollution control, alternative energy, recycling, waste incineration, waste water treatment, water purification and biotechnology.

Senior Portfolio Mngr. **Herr. Christian Zimmermann** M.Fin B.Fin zimmermannc@amundi.com

Christian Zimmermann has been in the financial services industry since 1996. He began his career as a floor analyst with Nord/LB Hannover and then moved to Activest in 2001 where he started in the buy-side research team before making the move into fund management. Progressing swiftly within the fund-management hierarchy at Activest, Herr Zimmerman is now responsible for the whole small and mid cap universe in Germany. His Activest Ecotech fund invests worldwide in ecological and sustainable companies and its success is testament to the fact that investments don't have to compromise ethics to be fruitful.

Start Date
09-Sep-19

Christian uses a technical-quantitative approach for identifying interesting stocks and then spreads the risk by selecting between 90 and 100 of them to add to his portfolio. As well as cooking and spending time with his young son, he also finds time for more strenuous activities in the forms of Judo, mountain biking and skiing.
