### Investment Philosophy and Objective

L'objectif d'investissement du Mirova Europe Environmental Equity Fund (le « Compartiment ») consiste à obtenir une performance supérieure aux marchés boursiers européens sur la durée minimale d'investissement recommandée de 5 ans, grâce à des investissements dans des sociétés délivrant principalement des solutions visant à résoudre les problèmes environnementaux. Le Compartiment n'est pas géré par rapport à un indice de référence spécifique. Toutefois, à titre indicatif, sa performance est comparable à celle de l'Indice MSCI Europe, dividendes nets réinvestis, libellé en euro.

Mirova Europe Environmental Equity Fund seeks to outperform European stock markets over the minimum recommended investment period of 5 years, through investments in companies delivering mainly solutions aimed at solving environmental problems. The Fund is not managed against a specific benchmark. However, for information purposes, the Fund's performance is comparable to that of the MSCI Europe Index, net dividends reinvested, denominated in euros.
